 - Mead Community Center
 - Kansas City District Commander may attend
 - Agenda Items
 - » June 2005 quarterly sample results
 - » Saunders County Model Review
 - » Submit proposed agenda items to USACE by Nov 1, 2005

Status Update

- Recent Activities Since Last RAB Meeting

Site Management Plan

- Major Elements of Draft SMP:
 1. On-going O&M of Treatment Systems
 2. Annual Groundwater Monitoring Program (GMP)
 3. Containment Evaluation
 4. Additional Investigation – Extent of Plume
 5. M.U.D. Baseline Sampling & Annual Monitoring
 6. Community Relations
 7. Exposure Pathway Assessment
 8. Overall Project Management

Site Management Plan

- **Highest community concerns:**
 - » Not enough residential well sampling
 - » Not enough monitoring wells to south
 - » Not enough monitoring wells to east (MUD concerns)
 - » Project schedule and plans not clearly described
 - » Is funding adequate for future work

- **How Concerns are being addressed:**
 - » 2005 and beyond – more residential sampling than in the past
 - » 2005 - investigation work and Revised SMP & Budget
 - » 2006 – more investigation and more monitoring wells
 - » 2007 – Monitor east side before MUD operations start

Question & Answer Period

- **Transcriptionist - state your name**
- **Use a microphone**
- **One question at a time**
- **Respect others**
- **No personal attacks**
- **Equal participation**
